Commissioner for Patents

The inventor Kun Suk Kim does not appear in the ADS, but does appear on the BIB data sheet. According to the MPEP guidelines the ADS control in the event of a discrepancy except for naming of the inventors and the citizenship of the inventors. The guidelines are attached below.

**I. GUIDELINES FOR DRAFTING A NONPROVISIONAL PATENT
APPLICATION UNDER 35 U.S.C. 111(a)**

The following guidelines illustrate the preferred layout and content of patent applications filed under 35 U.S.C. 111(a). These guidelines are suggested for the applicant's use. See also 37 CFR 1.77 and MPEP § 608.01(a). If an application data sheet (37 CFR 1.76) is used, data supplied in the application data sheet need not be provided elsewhere in the application except that the citizenship of each inventor must be provided in the oath or declaration under 37 CFR 1.63 even if this information is provided in the application data sheet (see 37 CFR 1.76(b)). If there is a discrepancy between the information submitted in an application data sheet and the information submitted elsewhere in the application, the application data sheet will control except for the naming of the inventors and the citizenship of the inventors. See MPEP § 601.05.
